Before you begin carrying out transactions with an electronic system, you should carefully review the rules and provisions of the stock exchange offering the system, or of the financial instruments listed that you intend to trade, as well as your broker’s conditions. Online trading has inherent risks due to system responses/reaction times and access times that may vary due to market conditions, system performance and other factors, and on which you have no influence. You should be aware of these additional risks in electronic trading before you carry out investment transactions.
