

# Trade Vector Ai Review [Updated]! SCAM or Legit Trading Platform

Upon successful verification, you can choose “Demo Account” from the dashboard. You **Trade Vector Ai** receive virtual funds (e.g., €10,000 in demo credits) to simulate live trading.

Futures transactions involve high risk. The amount of the initial margin is low compared to the value of the futures contract, so that transactions are “leveraged” or “geared”. A relatively small market movement has a proportionately larger impact on the funds that you have deposited or have to pay: this can work both for you and against you. You may experience the total loss of the initial margin funds as well as any additional funds deposited in the system. If the **Trade Vector Ai** market develops in a way that is contrary to your position or if margins are increased, you may be asked to pay significant additional funds at short notice to maintain your position. In this case it may also happen that your broker account is in the red and you thus have to make payments beyond the initial investment.

Trading Bot’s **Trade Vector Ai** website and independent reviews highlight several flagship features designed to set the platform apart from competitors. Below is an in-depth look at these attributes:

Trading Bot is a free trading platform. The minimum deposit required to start trading on the platform is only €250. You can begin live trading on the system after depositing this capital. Automated trading: Trading Bot is a trading system that has a feature that automates the whole trading process. After you choose automated trading mode on the platform, the system will automatically trade on your behalf and will make trading decisions based on the data that it has collected from analyzing the crypto trading market.

The software is automatically replaced every day, so people are free to carry on with their life. The parameters are reset every day and take about 20 minutes. So, it works without human intervention and makes huge profits every day. Traders know that the profit they make will stay with them because the broker will not ask for commissions. With this platform, one can use it for free with no hidden costs. They just have to deposit their investment and enjoy the benefits for a better life. Working with human brokers has this drawback because they charge commissions on profits earned. They determine the money traders get. This program is designed to meet the needs of those who do not want to use intermediaries to compromise their income potential.
