

Programs – Where in the World?

Where in the World?

Take a virtual trip to another country. Participants explore a new country or locale and discuss the food, people, customs and places of interest. Many participants share personal experiences about the various spots. A different country is featured each week. Focus is on both comprehension and expression. *Virtual Where in the World* also contains a trivia game to test your knowledge about the country. This program is appropriate for all levels of communication.
